# GetConnected
## Activate with us.

## Activate Where You Buy.

As a value-added distributor of IoT Solutions, GetWireless simplifies the procurement of cellular hardware and connectivity services. As a single-source offering hardware, activations, and professional services, we streamline the process for our partners.

**Purchase.** → **Activate.** → **Connect.**

## Why activate where you buy?

- Generate a single order for hardware and connectivity

- Save time and money by having the entire order ship from the same location

- Simplify professional services with SIM insertion and connectivity testing handled prior to shipping

- Achieve a single point of contact for all post-sale support

## GetWireless is Distributing The Internet of Things

# GetWireless

GetWireless is a leading Value-Added Distributor of cellular solutions that connect the Internet of Things.  By supporting a strong portfolio of embedded modules, end-device modems, and intelligent gateways, GetWireless is able to supply the most advantageous cellular solution for each new IoT application.
